SOFTWARE ENGINEER

As a Java Developer with over 2 years of experience, I specialize in developing reliable and scalable backend applications. I have expertise in managing the full software development lifecycle, from requirements analysis and architectural design to implementation and testing. I am also skilled in optimizing system performance, integrating external services, and ensuring compliance with security standards and applicable regulations.

KEY COMPETENCIES

Java Programming	Database Management	Testing & Debugging
Spring Framework	ORM Tools (Hibernate/JPA)	Agile & Waterfall Methodology
RESTful APIs & Microservices	Version Control (Git)	CI/CD Pipeline

PROFESSIONAL EXPERIENCE

PT. Indivara Group

Mei 2023 - Present

Associate Technical Consultant

- Application Development: Designing and developing Java-based applications using frameworks like Spring.
- Analysis and Design: Analyzing user needs and designing software solutions.
- Programming: Writing clean and efficient code.
- Testing: Conducting unit testing and debugging to ensure software quality.
- Database Management: Designing and managing databases using SQL or NoSQL.
- Documentation: Creating and maintaining technical documentation.
- Team Collaboration: Working with other teams to achieve project goals.
- Learning: Keeping up with the latest technology trends and enhancing skills.
- Security: Ensuring applications are secure from attacks.
- Version Control: Using version control systems like Git.

FREELANCER

Client Worldwide

2021 - Present

Fullstack Developer

- Built custom web applications using technologies like JavaScript, React, HTML/CSS, Laravel, MySQL, and PostgreSQL.
 - Delivered responsive, user-friendly interfaces and scalable backend systems.
 - Developed software solutions for diverse industries, ensuring high performance and seamless user experiences.
-

EDUCATION & CERTIFICATIONS

Bachelor of Information Technology

University of Mercubuana

AWS Certified Developer - Associate

Amazon Web Services

AWS Cloud Practitioner - Foundational

Amazon Web Services

BOOTCAMP & LEARNING

Intro to Frontend Development
